This table gives the companies that are approved. They may not have approvals for each combination of vehicle. Please check with the manufacturer.

" These data are to be used if choosing to fit a filter to a vehicle. If you already have a filter fitted, please check that the filter still meets the new London standards, as some of the filters from the above companies do not.

Larger vans and mini-buses, see [London](#)

* The German and Czech Republic certified manufacturers are certified for different options, for Euro 1, 2 and 3 vehicles. Ask which is possible for your vehicle.

^ In Danish LEZs it is fitting the certified (80% reduction) filter that allows entry to the LEZ. The table shows which Euro standard vehicles can be retrofitted.

+ NOx and PM abatement required.

Table 2. Light Duty certified in Germany, also recognised in the Netherlands

This table is valid as of 4/1/12, please check for updates.

Manufacturer
Audi AG
Bayerische Motoren Werke AG
Daimler AG
Eberspächer GmbH & Co. KG
EBIS Engineering GmbH & Co. KG
Karl-Heinz Grywotz Automobiltechnik GmbH
HJS Fahrzeugtechnik GmbH & Co. KG
Jaguar Deutschland GmbH
K.A.T. Entwicklungsgesellschaft für Abgasreinigung und Thermographie mbH
Land Rover Deutschland GmbH
Oberland-Mangold GmbH
Remus Innovation Forschungs- und Abgasanlagen Produktionsgesellschaft m.b.H.
Pirelli & C. Eco Technology S.P.A.
Sebring Technology GmbH
TWINTEC Technologie GmbH
Volkswagen AG

Table 3. Light Duty certified in Italy, as of 4th May 2010 – some of the manufacturers above approved in Italy for heavy duty may well also be valid for light duty.

GAT Eurocat
HJS
Pirelli
Twintec

See Table 1 above for filters certified for Larger Vans and Minibuses for London
