Public transport for children:
Children's public transport, using vehicles assigned to public transport duties (i.e. with more than nine seats, including the driver’s seat), is defined as transport organised primarily for persons aged under 18, regardless of the reason for their journey.

In 2017, children's public transport is prohibited on Saturday 29 July and Saturday 12 August, throughout the 24-hour period concerned. This ban applies to all the travels except those made inside a department and between bordering départements.
